

Diego Alves

Passionate Full Stack Developer

diego19871222@gmail.com

+1 406 873 8801

Brasilia, Brazil

I have a big passion to help others with my web technologies. I have 7 years+ experiences in web development and have worked with small, medium and large businesses across US and Europe with different industries and types building small-large scaled websites and applications. I see technologies not only from a technical point of view but also a business point of view. I am a problem solver and I am proficient in troubleshooting any challenges I come across.

WORK EXPERIENCE

Senior Web Developer BlueNotary

04/2022 - 01/2023

Chicago, United States

BlueNotary can perform any notarization that is legal for online notarization in the state where the notary is commissioned

Achievements/Tasks

- Provided a role of myself as a development team lead where my main responsibility was to create a scalable architecture and related activities so that the company can generate maximum revenue by building high quality web applications
- Carried out a majority of development in Vue.js and Node.js.

Contact : Andy Blue - andy@bluenotary.us
